6.2. Assessment criteria

Progressive evaluation:

Students will complete a group project. This project is based on developing a business plan to create a new company. Students will develop their projects through continuous work throughout the semester. All lectures will provide them with the proper grounds for their projects. Moreover, they will be presenting their business plan in the class continuously throughout the semester, and they will receive feedback from the lecture accordingly.

- A business concept note will be prepared and submitted throughout the first part of the course. An oral presentation and defense is expected as a mid-term evaluation. The grading scale to evaluate it will be from 0 to 10 and the grade will be common for the whole group.
- The final report will be developed throughout the semester and delivered as the final evaluation item. The grading scale to evaluate it will be from 0 to 10 and the grade will be common for the whole group.
- A final presentation (oral defense) is compulsory. Students will be developing their presentations throughout the semester receiving continuous feedback in the class. The presentation will be in groups, and the grade will be common for the whole group. The grading scale to evaluate it will be from 0 to 10 and the grade will be common for the whole group.
- Attendance and active participation **in all lectures will be considered to contribute to the final grade by 20%. The grading scale to evaluate it will be from 0 to 10 and the grade will be on an individual basis.**
- No examination will be made.

Global evaluation:

When the overall score obtained by the student in the progressive evaluation period is smaller than 5, the student will have to re-submit the Final Report (and/or repeat the presentation) that does not reach the minimum score required. In no case assignments/presentations that have a score equal to or greater than 5 will be repeated

Extraordinary evaluation:

When the overall score obtained by the student in the global evaluation period is smaller than 5, the student will have to repeat (or perform in case (s)he has not done it before) all evaluation tasks that do not reach the minimum score required. In no case evaluation tasks that have a score equal to or greater than 5 will be repeated.

8. Other information

8.1. Other information about the subject

In this course, and in case of any eventuality, although it will be a small group of students, every session could be moved to online teaching through Teams or Collaborate via Moodle. Uncertainty is rather high at the moment this guide is being validated, but everything has been defined to switch from unperson teaching to online sessions automatically.

The subject is related to SDGs 1, 4, 8, 9, 10 and 12.
